**Prepared by Leigh Campoamor**

**Princeton University Library  
Princeton, NJ  
2003**

## Scope Note

### Contents:

This microfilm contains pamphlets, periodicals, and other miscellaneous items addressing a range of issues related to youth and children in Peru, such as labor, violence, health, education, and political participation and rights. The material is produced by a variety of sources, including Peruvian non-governmental organizations (NGOs), youth and children's movements, two international NGOs (Pathfinder and R dda Barnen), two state institutions (CEDRO and MIMDES), a Peruvian university (Universidad del Pac fico), and several inter-institutional coalitions.

### Organization:

The material is arranged into six files, each covering a specific subject area relating to youth and children. Items are generally arranged alphabetically by publishing organization; within each publishing organization, the items are ordered chronologically according to year of publication. The one exception is **File 6: Programa Nacional de Municipios Escolares**, which consists exclusively of documents produced by Acci n por los Ni os, the primary executor of the school-based program. **File 4: Health** includes material addressing a wide array of health and child development issues, such as mental health, sexuality and child abuse.

In the case of undated documents, either the symbol "s.d." or brackets are used to indicate the approximate year of publication. Undated items are either placed with other undated material at the beginning of the publishing institution's section, or among other material whose dates of publication are approximately the same. Unidentified publishers and indicated by the abbreviation "s.n."
